Toronto, ON – December 11, 2009 - On November 12, 2009, ABC Group was awarded SPE "INNOVATION" award in the Body Exterior category for the Injection moulded spoiler with integrated CHMSL assembly. This Spoiler was manufactured from a material, jointly developed between Sabic Innovative Plastics and ABC Group. The Cycloy PC/ABS material offers low thermal expansion, allowing for tighter controlled tolerances between parts and components adjacent to the spoiler.

ABC Group is a global supplier of automotive systems with over 20 manufacturing locations in North America, South America, Europe and Asia. ABC Group offers a complete end-to-end solution providing expertise in each of the key areas from concept to production and assembly, including: design and engineering, tooling, machine building, materials, research and development, manufacturing, painting, and quality assurance.
