Toronto, Ontario. - May 2009 – ABC Group of Companies has once again been honored with the GM Supplier of the Year Award in 2008, for Exterior Components. This highly coveted award recognizes quality, service, technological innovation, and competitive pricing. GM Group, Global Purchasing and Supply Chain Vice President, Bo Anderson said *“During these difficult economic times, it’s more important than ever to recognize performance in our supply base. These suppliers are best of the best and we want to honor them for their tremendous performance.”*

This is ABC Group’s 6th award for GM Supplier of the Year. Since the creation of the award, ABC Group has been continuously recognised, echoing the words of our founder and late president, Mr Mike Schmidt, *“This achievement shows that anything is possible with teamwork, determination and a strong commitment to providing quality service to our customers”*.

The General Motors ‘Supplier of the Year’ award began as a global program in 1992. Award-winners are selected by the global team of executives from purchasing, engineering, manufacturing and logistics, who base their decisions on supplier performance in quality, service, technology and price. This year GM honoured ninety-nine (99) suppliers from over twenty (20) countries for their excellence throughout 2008.
